

Grow: Parallax Effect

The best way to improve your knowledge base and skills is through feedback. Use the form below to get feedback on your post from two other students in the class. Once you have their feedback, reflect on what you've learned in this unit.

Feedback from _____:

- Critique the content on the post. Is it free from spelling and grammar issues? Is it broken into short, easy to read paragraphs? Does it provide a unique perspective, or is the content common knowledge? Use at least three sentences/points in your response.
- Evaluate the use of the parallax effect. Does it complement the design, or does something need to be changed?
- What are your overall thoughts on the design of the post? What is the user experience like? What items grab your attention? What do you like, and what could be improved?
- If you had to make one suggestion for something to change or improve, what would it be? Be specific.
- Overall thoughts/comments:

Your Reflection:

- What was most surprising about the feedback you received?
- What are you most proud of in your work with creating a post and using the parallax effect?
- What is one thing you plan to improve upon based on the feedback you received?
